Description

We have all sat through an incredibly boring student presentation. The one where the students turn their backs to the audience, read text off the slides, and struggle to answer any questions about what they just said. Slideshows are not the answer! Instead, have the students create something meaningful with Google Slides. By hacking Google Slides,

Agenda:

- ❏ Introductions
- ❏ Goals & Objectives
    - ❏ Participants will be:
        - ❏ able to Resize Google Slides
